DIARY NOTES

DD/S

10 October 1958

1. [REDACTED] telephoned to say that the Bureau of the Budget had asked for a meeting with appropriate Agency representatives to discuss a change in the admission of Mexicans and Cubans to the United States. Apparently it has been suggested that a preflight name check might suffice in lieu of the present visa system. Chuck called [REDACTED] who explained that this was a very hot controversial issue between the Department of State and the Immigration and Naturalization Service and that, further, CIA had already been put in the middle to an embarrassing extent. Herman did not want to answer any questions except in response to a letter which he suggested that the Bureau send over. Further exploration indicated that this request had been made by Frank Ecker on behalf of a Mr. Scott Moore of the Bureau of the Budget. I told Chuck to advise Frank that we did not want to be put in the middle anymore on this subject, to find out exactly who Mr. Scott Moore was and specifically what it was he wanted. When I have that information I will then speak to the Director about the desirability of a meeting since, according to Herman, the Director has been personally drawn into this discussion already.

2. I cautioned Jim Garrison not to start any redecorating of the Office of National Estimates Conference Room without discussing the matter with me.

The above costs, of course, do not include any of the equipment which would go into these buildings. I assume that they will probably be coming forward to the Project

Review Committee for approval at which time many questions will be raised. We, of course, are not budgeted for this Project and will have to get approval from the Bureau of the Budget. It would not appear to be an appropriate item for which we might request a withdrawal from the Contingency Reserve and, of course, the \$64 question is "Why can't this work be contracted for in lieu of doing it with our own people in our own installation?"

25X1A9a 4. [REDACTED] called to report on the [REDACTED] 25X1A5a2  
25X1A6a who was evacuated from [REDACTED] (This is the man who claimed that he  
25X1A9a had been hypnotized by one [REDACTED] and had, while in a state of hypnosis,  
revealed some very sensitive information.) The man arrived yesterday and was  
25X1A5a1 hospitalized. Upon Dr. Tietjen's recommendation he was turned over to the [REDACTED] 25X1A5a2  
[REDACTED] today and moved to Philadelphia. It was a Medical/Security opinion that  
25X1A5a2 there was no point in interrogating him in his present state of mind. [REDACTED]  
telephoned a Vice President of the [REDACTED], who is a friend of his, and re-  
quested that we be advised as soon as the boy had recovered sufficiently to interrogate. 25X1A9a
